DIPLOMA IN INFORMATION TECHNOLOGY

JPT/BPP(MQA/FA4979)03/20

Quest International University's **Diploma in Information Technology** provides up-to-date theoretical and applied knowledge to broaden students' expertise in the computing industry. It is designed to give them a high level of competence in the use of computer applications for business, and experience in learning to manage computer systems.

Courses in this programme will lay a solid foundation that enables students to progress to higher level qualifications in related fields.

Assignments, seminars, industrial training and successful projects undertaken throughout the duration of the programme will contribute towards the creation of a student who has the requisite skills to obtain a suitable job in the fields of Information Technology and Computer Science.
